## SYSTEMS AND METHODS FOR CREATING AND TRADING DYNAMIC SECURITIES

## Abstract of the Invention

[0036] Systems and methods for creating and trading dynamic securities are provided. Dynamic securities according to the invention may preferably include any security or non-securitized investment. To form the dynamic security, a user may select a plurality of securities including stocks, bonds, baseball cards and modern art paintings to create a dynamic security. The selection may be limited to a pre-determined list of securities.
